Arcades and pool halls website workbook

Plan a welcoming six-page venue website before entering content in Website Builder. Each working page combines practical advice, a Prairie Break example, and room for your own draft.

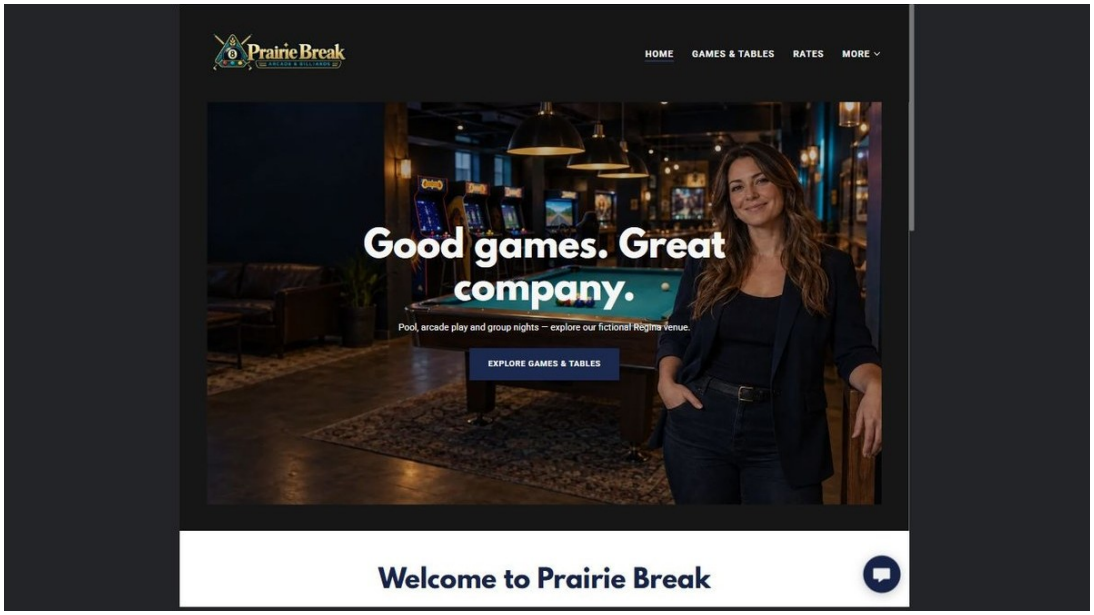

The visitor explores what is available, checks rates and events, plans a group visit, then confirms how to arrive.

Before the workshop

Bring verified hours, rates, capacity limits, booking terms, public contact details, accessibility information, current logo files, and photographs you have permission to publish. Replace every fictional Prairie Break detail with approved business information.
