Getting started with SaaSTech Servers

Create your free account before contacting support. Keep the detachable record private.

1 Create or sign in to your account

Use an email you can access and follow the secure account prompts. No purchase is required.

2 Keep your customer number and call-in PIN ready

Support may ask for both during a call you initiated through verified Contact Us.

3 Enable two-step verification

Have your registered phone or authenticator device with you when calling SaaSTech Servers; you may need it to sign in or verify the account yourself.

Update your call-in PIN at pin.saastech.net or in My Account after signing in.

Never share your account password or call-in PIN with someone helping manage your services. Each helper should create their own SaaSTech Servers account and receive only the delegated permissions they need. Review purchase/payment and account-security permissions carefully.

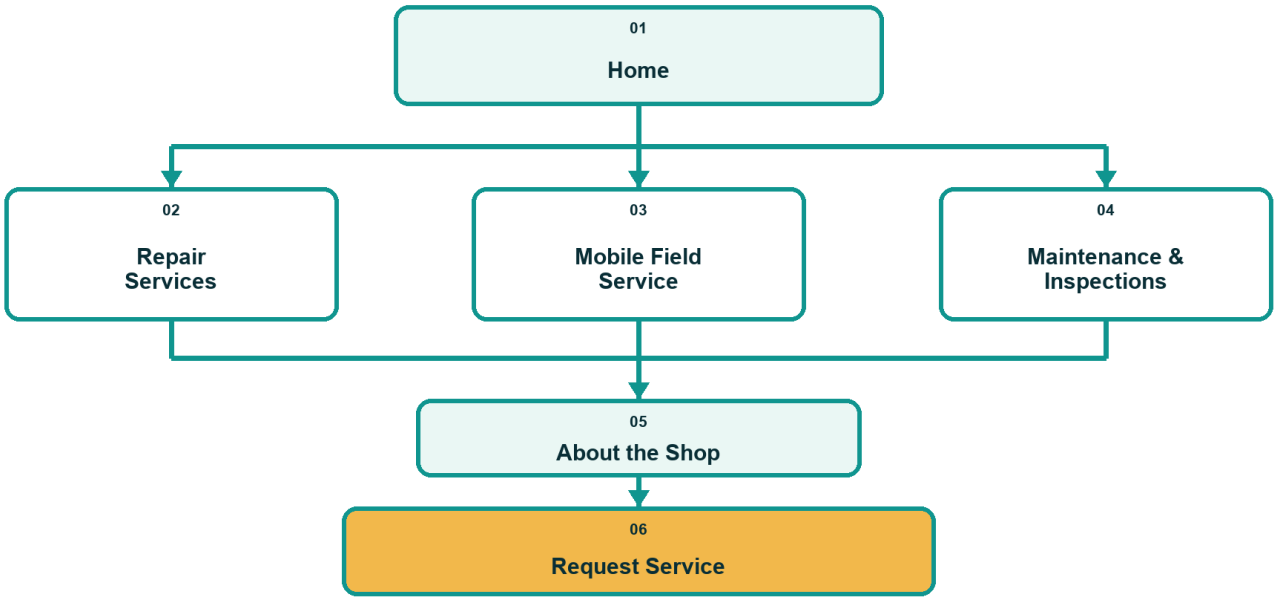

For official support, give the call-in PIN only during a call you initiated through verified Contact Us. Never share passwords, sign-in verification codes or recovery codes.

Do not record passwords, verification/recovery codes, security answers or payment details here. Keep this card safe and cut or tear it out before sharing the workbook.

Use a secure password manager for passwords and recovery information.

Build a farm equipment repair website that earns the next conversation

Use this SaaSTech Servers workshop workbook to plan six purposeful pages, compare the Prairie Gearworks example on desktop and mobile, and draft your own customer-ready wording.
