Home

The job of this page

State the jurisdictions and client groups served, introduce the firm, identify the active practice areas, and offer one clear consultation-request path without inviting confidential case details.

Prairie Crest Law example | Explore SaaSTech Servers Website Builder

Sample wording to adapt

Understand the next step before a consultation

Explore the practice areas and consultation process. Contact the firm through its approved intake channel. A website enquiry does not create a lawyer-client relationship or provide legal advice.

Pause and plan

Could a first-time visitor explain what you do and who it is for after one glance? Choose one main action and the strongest truthful detail that gives them confidence to continue.

Sample wording to adapt

Find the relevant practice area

Read the types of matters the firm handles and ask about the appropriate intake step. Representation depends on the firm's review and agreement. Do not send confidential case details through a general form.

Pause and plan

Who is each option for, what does it include and where are its limits? Describe the information needed to check fit. Make the next step clear without promising an outcome before assessment.

Know who you are contacting

Review verified professional roles, qualifications and contact information. Ask the firm who would handle your enquiry. A demonstration website does not establish real credentials or client experience.

Which names, roles and qualifications can you verify? What would help a visitor feel comfortable contacting you? Obtain permission for portraits and describe actual experience without unsupported claims.

Review and next steps

Ask a partner to read your draft as a first-time visitor. Can they explain what you offer, who it is for and the next step without extra help?

Before you publish

[ ] Every page has a clear purpose and a useful next step.

[ ] Headlines are specific and the wording sounds like your business.

[ ] Names, service areas, prices, dates and policies have been checked.

[ ] Credentials, testimonials and results are genuine and permission-cleared.

[ ] Photos support the text, do not repeat needlessly and have appropriate permissions.

[ ] Forms ask only for necessary information and explain what happens next.

[ ] Links, downloads and the main visitor task work on a phone.
