Getting started with SaaSTech Servers

Create your free account before contacting support. Keep the detachable record private.

1 Create or sign in to your account

Use an email you can access and follow the secure account prompts. No purchase is required.

2 Keep your customer number and call-in PIN ready

Support may ask for both during a call you initiated through verified Contact Us.

3 Enable two-step verification

Have your registered phone or authenticator device with you when calling SaaSTech Servers; you may need it to sign in or verify the account yourself.

Create My Account | saastech.net/create-account

Contact Us	Account Learning Centre	Delegate access playlist
		

On Contact Us, check your language/region and currency settings, then use the local contact number shown there.

The Account Learning Centre covers setup and delegation for Website Builder and other services. Choose Work with delegates.

Cut or tear out the card below before sharing this workbook

PRIVATE account reference and call-in authentication

Organization or name _____

Account sign-in email _____

Customer number _____

Call-in PIN _____

Domain names _____

Reviewed on _____

Update your call-in PIN at pin.saastech.net or in My Account after signing in.

Never share your account password or call-in PIN with someone helping manage your services. Each helper should create their own SaaSTech Servers account and receive only the delegated permissions they need. Review purchase/payment and account-security permissions carefully.

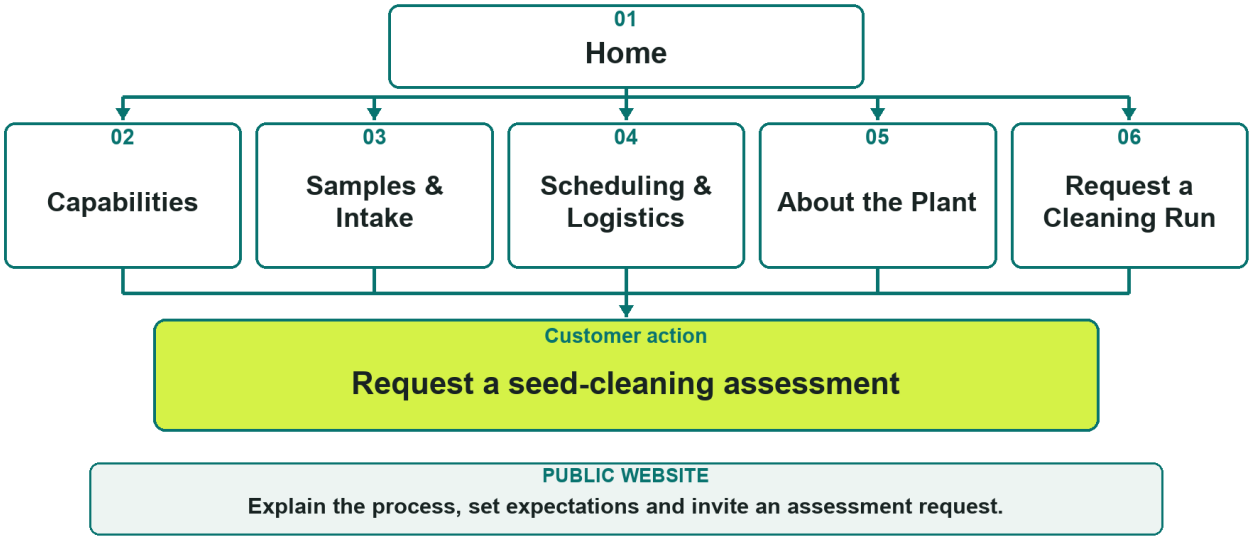

For official support, give the call-in PIN only during a call you initiated through verified Contact Us. Never share passwords, sign-in verification codes or recovery codes.

Do not record passwords, verification/recovery codes, security answers or payment details here. Keep this card safe and cut or tear it out before sharing the workbook.

Use a secure password manager for passwords and recovery information.

Seed Cleaning Plants website workbook

A printable SaaSTech Servers workshop guide for planning a useful seed-cleaning website, studying the Prairie Select example and drafting your own wording.

Inside this workbook

Six page examples, practical website advice, writing exercises, photo planning and a final desktop/mobile review

Explore Website Builder and compare plans

Open the Seed Cleaning Plants industry guide

WORKSHOP START

Define the grower journey

A useful seed-cleaning website explains fit, process and timing without presenting estimates as guaranteed outcomes.

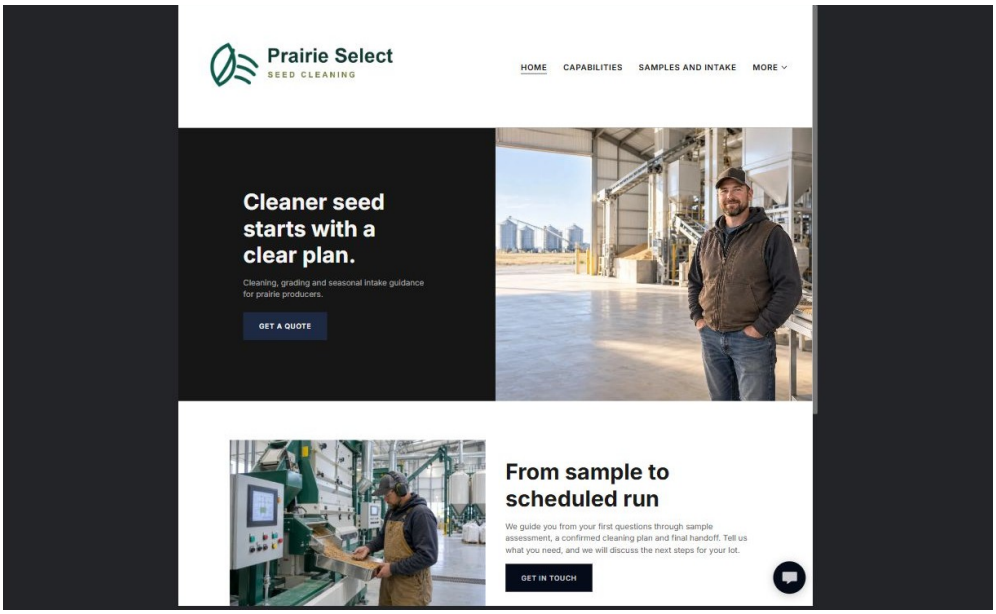

- □ Choose one grower question for each page.
- □ Confirm accepted crops, service area, seasonal capacity and contact details.
- □ Gather distinct, permission-cleared photos that match each page.
- □ Separate public education from private lot, treatment and payment records.
- □ Assign an owner and review date for every operational claim.

What should a first-time grower understand or do

Business facts, photos and approvals still needed

Home

Show who the plant serves and the primary assessment request in the first screen. Add your verified service area, not an assumed location.

From the Prairie Select demo

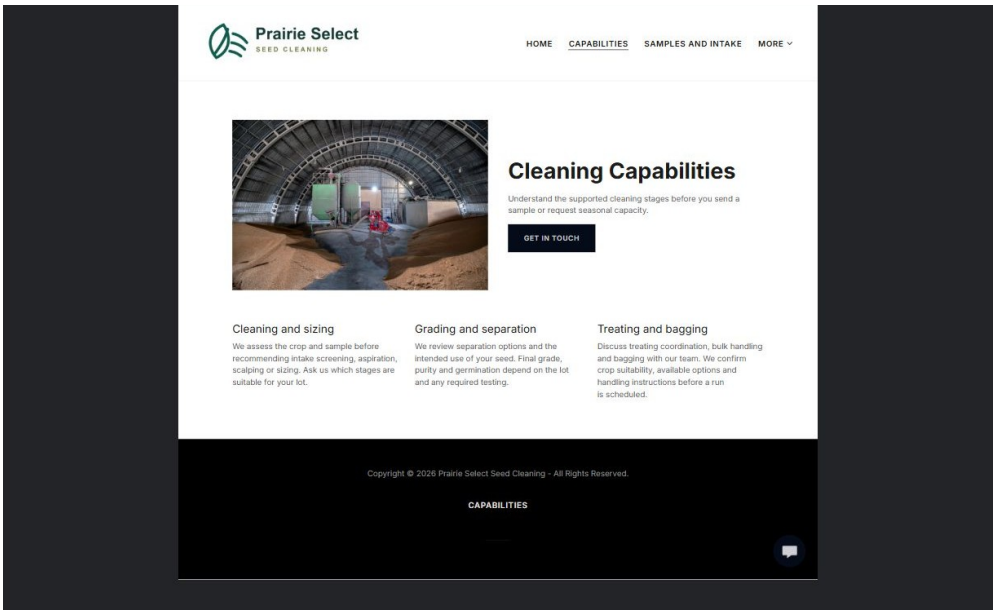

Cleaner seed starts with a clear plan. Cleaning, grading and seasonal intake guidance for prairie producers.

Draft your own page wording

Photos, proof, links and approvals to prepare

Capabilities

Group capabilities by customer need. Explain how sample assessment determines the final process; do not promise grades or germination results.

From the Prairie Select demo

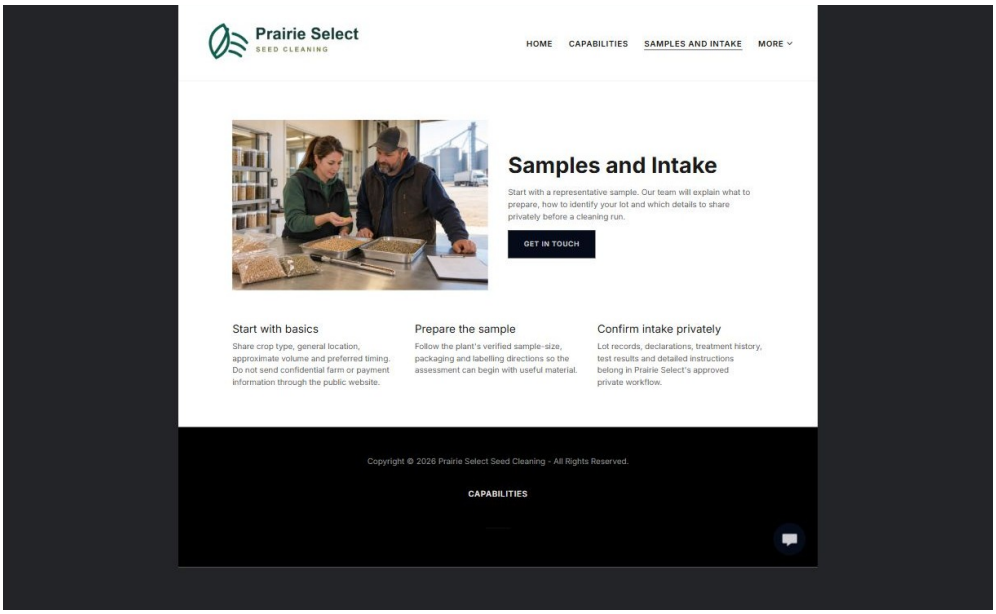

We assess the crop and sample before recommending intake screening, aspiration, scalping or sizing. Ask us which stages are suitable for your lot.

Draft your own page wording

Photos, proof, links and approvals to prepare

Samples and Intake

Explain sample preparation and lot identification. Confirm your plant's actual sample-size and packaging instructions before publishing them.

From the Prairie Select demo

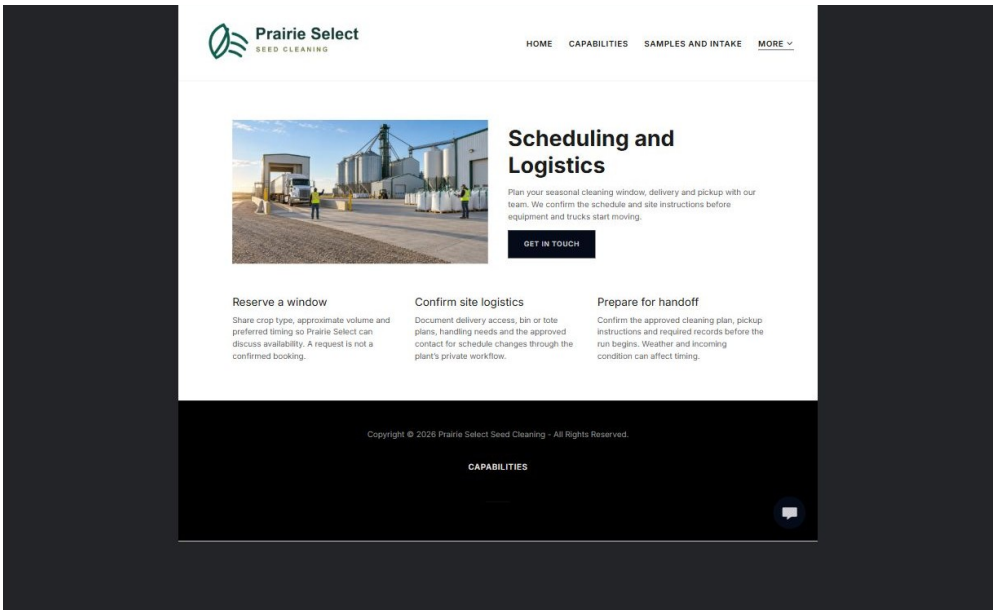

Start with a representative sample. Our team will explain what to prepare, how to identify your lot and which details to share privately before a cleaning run.

Draft your own page wording

Photos, proof, links and approvals to prepare

Scheduling and Logistics

Set expectations for seasonal demand, delivery and pickup. Make the distinction between a requested window and a confirmed booking clear.

From the Prairie Select demo

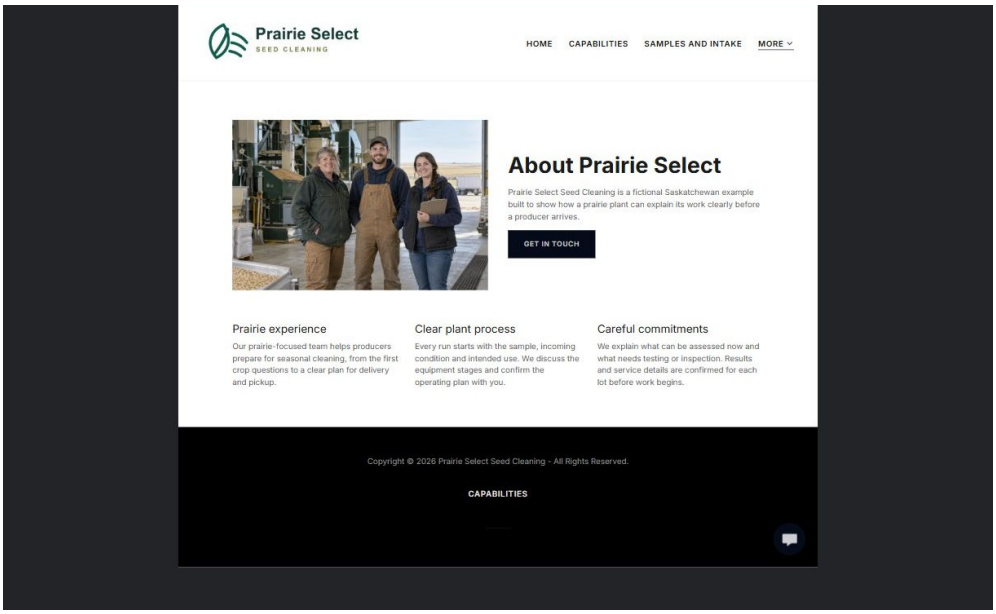

Plan your seasonal cleaning window, delivery and pickup with our team. We confirm the schedule and site instructions before equipment and trucks start moving.

Draft your own page wording

Photos, proof, links and approvals to prepare

About the Plant

Show the people and facility behind the service. Replace the fictional demo identity with verified experience, responsibilities and relevant photos.

From the Prairie Select demo

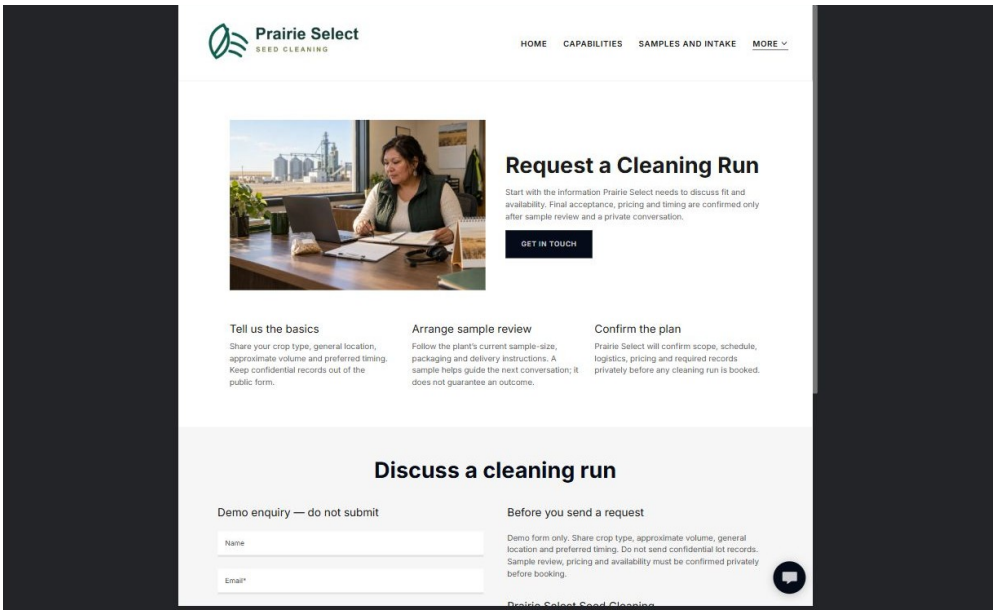

Our prairie-focused team helps producers prepare for seasonal cleaning, from the first crop questions to a clear plan for delivery and pickup.

Draft your own page wording

Photos, proof, links and approvals to prepare

Request a Cleaning Run

Ask only for initial enquiry details. Configure and test the real recipient privately before launch; this example form is labelled demo only.

From the Prairie Select demo

Start with the information Prairie Select needs to discuss fit and availability. Final acceptance, pricing and timing are confirmed only after sample review and a private conversation.

Draft your own page wording

Photos, proof, links and approvals to prepare

FINAL REVIEW

Test the complete customer journey

Ask someone unfamiliar with the plant to identify whether the service may fit, understand the assessment process and request a next step.

- □ Each page has one clear purpose and one primary action.
- □ Desktop and mobile previews are readable and use the correct logo contrast.
- □ Every photo is relevant, distinct and permission-cleared.
- □ Capabilities, timing and outcome wording explains what must be assessed or confirmed.
- □ Service area, seasonal details and contact paths are current.
- □ A clearly named backup and future content-review date are recorded.
