Getting started with SaaSTech Servers

Create your free account before contacting support. Keep the detachable record private.

1 Create or sign in to your account

Use an email you can access and follow the secure account prompts. No purchase is required.

2 Keep your customer number and call-in PIN ready

Support may ask for both during a call you initiated through verified Contact Us.

3 Enable two-step verification

Have your registered phone or authenticator device with you when calling SaaSTech Servers; you may need it to sign in or verify the account yourself.

Update your call-in PIN at pin.saastech.net or in My Account after signing in.

Never share your account password or call-in PIN with someone helping manage your services. Each helper should create their own SaaSTech Servers account and receive only the delegated permissions they need. Review purchase/payment and account-security permissions carefully.

For official support, give the call-in PIN only during a call you initiated through verified Contact Us. Never share passwords, sign-in verification codes or recovery codes.

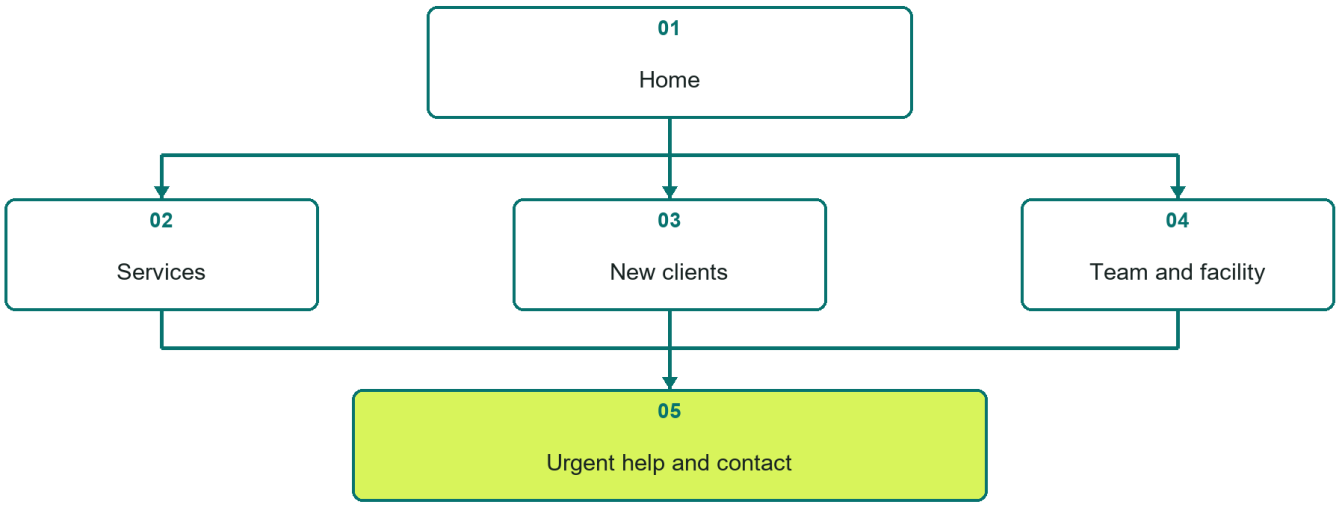

Do not record passwords, verification/recovery codes, security answers or payment details here. Keep this card safe and cut or tear it out before sharing the workbook.

Use a secure password manager for passwords and recovery information.

WEBSITE PLANNING WORKSHOP

Veterinary & Animal Care Website workbook

Plan a clear website for veterinary & animal care. Explore a worked example, shape your own message and prepare to build with SaaSTech Servers.

Your recommended pages at a glance

Inside this workbook

Five page examples • Practical writing exercises • A launch review

Use it in a workshop or at your own pace. Write by hand or complete the response fields in Word. The final page links to Website Builder, plans and account signup.

Example business Meadowline Veterinary Care

VETERINARY & ANIMAL CARE

Your website brief

A SaaSTech Servers workshop for veterinary & animal care. Plan your website, learn from the Meadowline Veterinary Care example and draft content for your own business.

Each page has a reference sheet followed by a writing sheet. Demo excerpts are labelled separately from new sample wording, which may differ from the screenshot. Click a blank response line to type; longer answers may add pages. Replace fictional details and verify every claim before publishing.

Your business or organization and workshop date

Who should visit your site and what do they need

The main action you want a visitor to take

What you offer and where or how you provide it

Facts photos and permissions to gather before publishing

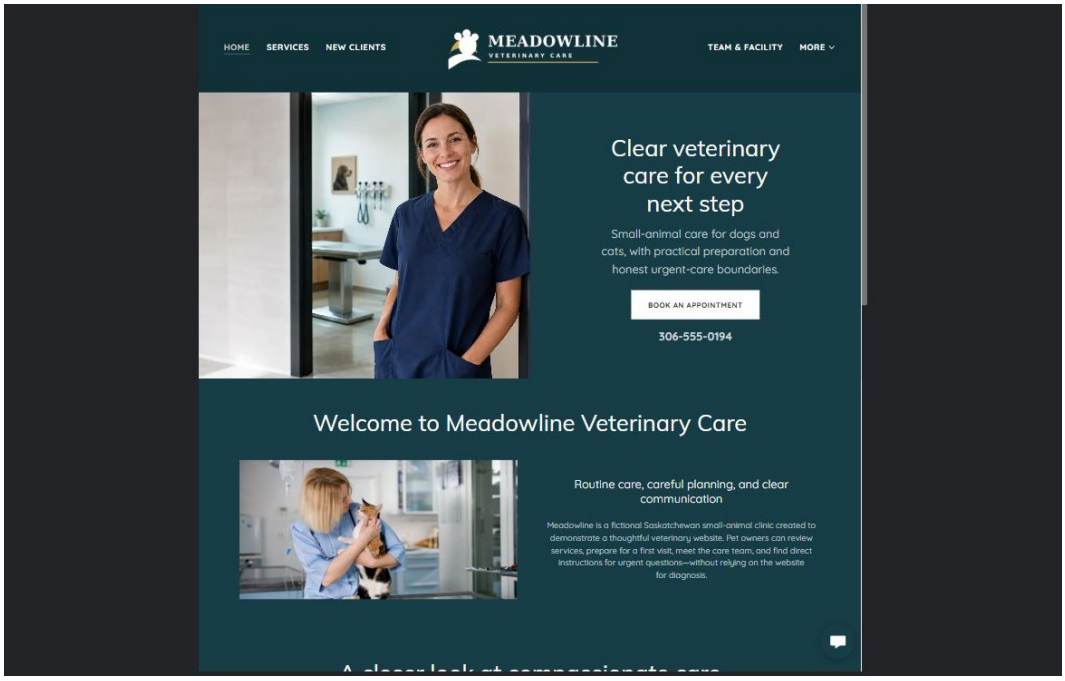

Workshop rhythm: review the example, write your draft and exchange feedback. Use the final review to choose your next changes. Website Builder and account links are on the last page.

Demo text example

Clear veterinary care for every next step

Small-animal care for dogs and cats, with practical preparation and honest urgent-care boundaries.

Pause and plan

Could a first-time visitor explain what you do and who it is for after one glance? Choose one main action and the strongest truthful detail that gives them confidence to continue.

Sample wording to adapt

Ask about the care your pet needs

Explore the services offered and contact the clinic about the appropriate next step. The website cannot assess an animal or recommend treatment. Availability and appointment arrangements require confirmation.

Pause and plan

Who is each option for, what does it include and where are its limits? Describe the information needed to check fit. Make the next step clear without promising an outcome before assessment.

New clients

The job of this page

Explain registration, records transfer, first-visit expectations, deposits, and appointment policies.

Sample wording to adapt

Prepare for a first visit

Ask the clinic which records and practical details to bring. Confirm the appointment, transport arrangements and any specific preparation directly. Do not send confidential records through an unapproved public form.

Pause and plan

What should someone know before arriving or proceeding? Clarify preparation, access and the right contact route. Verify policies and avoid promising urgent help or specialist advice the website cannot provide.

Team and facility

The job of this page

Show verifiable professional credentials, staff roles, approach, accessibility, and appropriate facility photographs.

Sample wording to adapt

Meet the people behind the clinic

Find verified team roles and credentials and practical information about arriving at the facility. Ask about access needs before travelling. Example photographs do not establish real staff qualifications.

Pause and plan

Which names, roles and qualifications can you verify? What would help a visitor feel comfortable contacting you? Obtain permission for portraits and describe actual experience without unsupported claims.

Urgent help and contact

The job of this page

Explain when to call, what emergency coverage is available, and where to seek help when the practice is closed.

Meadowline Veterinary Care example | Explore SaaSTech Servers Website Builder

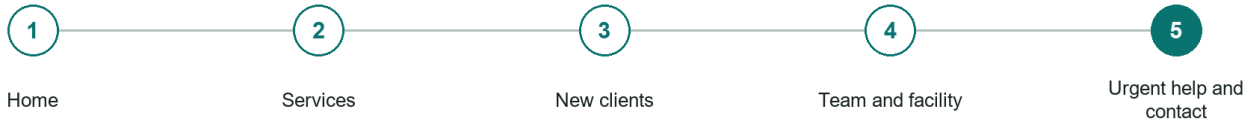

Sample wording to adapt

Know how to get urgent help

Use the clinic's verified urgent-care instructions and confirm where care is available before travelling. A routine online message is not an emergency service, and this demonstration cannot provide veterinary advice.

Pause and plan

What must someone provide, and what happens after they send it? Separate a request from a confirmed booking, order or place. Decide what information should stay out of a public form.

Review and next steps

Ask a partner to read your draft as a first-time visitor. Can they explain what you offer, who it is for and the next step without extra help?

Before you publish

[ ] Every page has a clear purpose and a useful next step.

[ ] Headlines are specific and the wording sounds like your business.

[ ] Names, service areas, prices, dates and policies have been checked.

[ ] Credentials, testimonials and results are genuine and permission-cleared.

[ ] Photos support the text, do not repeat needlessly and have appropriate permissions.

[ ] Forms ask only for necessary information and explain what happens next.

[ ] Links, downloads and the main visitor task work on a phone.
